The Latest Products, Technology & In-home Services

Called prior to arrival and was professional and helpful throughout, taking the careful steps to demonstrate the system and walk us through installing the app and ensuring it was operational. GREAT service!!! I'd rate him with 10 stars if I could.

— **Ramon M. Raleigh, NC**

Technician did a fantastic job! I'm so happy he came to assemble, we didn't even think about assembling it ourselves based on reviews for the TV unit. He arrived earlier which we preferred. Polite, worked hard, very nice gentleman. Wish I could give him 100 stars, do yourself a favor and order assembly, not expensive and totally worth it.

— **Justine C. Miami, FL**

The technicians was very polite, he called before hand and arrived on time. He handled everything very professional. He mounted my TV just like I wanted! He was very knowledgeable with anything he was doing, and answered all my questions and concerns.

— **Marcy S. Detroit, MI**

Excellent service. Very professional job. Pre-mounted the wall stand and show me how it would look like. After doing the job, he cleaned dust and vacuum dirt.

— **Kathryn R. Dallas, TX**

Delivered. Installed. Demonstrated.

Discover the most reliable, convenient way to get your home fully connected with the latest technology, smart home products and in-home services for your family. Our professional installation experts ensure you get the right product installed the right way!
